

Dear FCC: I am able to receive K-LOVE in the mountainous region where I live north of Tucson. It is refreshing to hear a positive message/music broadcast in our area. I find it uplifting as I listen throughout my day. It actually improves my attitude while I am driving. It would be a tremendous loss for our community to lose K-LOVE. I am certain my neighbors and other residents in this area appreciate and benefit from the K-LOVE broadcasts. Thank you, Robert Walker
